KDM has been in the engineering and manufacturing switchgears for more than 10 years. We and our kind of product are known for their reliability, efficiency and affordability. Who is switchgear? Over 10 years of Switchgear manufacturing experience. Our products have ISO9001, OHSAS18001, ISO14001, CCC certificates. Since the establishment of the company, we have focused on production. We have rich experience to help you order. We exported goods to Middle Asia, Middle East, Southeast Asia, Africa, South America and other countries. What is a switchgear system? Switchgear is a type of electrical equipment that is designed to control, protect and isolate connected electrical devices. Switchgear is used both to de-energize devices to allow work to be done and to clear faults downstream. Let's become more familiar with such type of equipment. What are the common types of switchgear systems? What is an automated power system with switchgear? Parts of the power grid can then be quickly restored and the damage radius is minimized. A good example of an automated power system with switchgear can be found practically on any modern power station. Also, such systems are frequently used on manufacturing sites and other facilities where huge electricity consumption can be met.
