

# Huawei Tashkent Energy Storage Group Project

## Huawei Tashkent Energy Storage Group Project

What is EBRD doing with Tashkent solar PV & energy storage? Nandita Parshad, Managing Director, Sustainable Infrastructure Group at EBRD, said: "We are proud to partner with ACWA Power and co-financiers on the pioneering Tashkent Solar PV and energy storage project in Uzbekistan, the largest of its kind in Central Asia. The project is core to Uzbekistan's ambition to install 25GW of renewables with projections showing further cost reductions by 2030. Will Uzbekistan fund a 250-megawatt solar photovoltaic plant? Tashkent, Uzbekistan, May 21, -- The World Bank Group, Abu Dhabi Future Energy Company PJSC (Masdar), and the Government of Uzbekistan have signed a financial package to fund a 250-megawatt (MW) solar photovoltaic plant with a 63-MW battery energy storage system (BESS). Why is ACWA partnering with Tashkent Riverside? The agreement today for the Tashkent Riverside project reflects the strong trust placed in ACWA Power as the private sector partner, and one of the global leaders in renewables and energy storage. Will Uzbekistan install 25 GW of renewables by ? The project is core to Uzbekistan's ambition to install 25 GW of renewables with projections showing further cost reductions by 2030. This project can power 170,000 households and the battery storage capacity is equivalent to 8,000 electric vehicles." Who will sell electricity to in Uzbekistan? The project company is committed to selling electricity to the state-owned National Electric Grid of Uzbekistan JSC under a 25-year Power Purchase Agreement for the project, including a 10-year operating term for the BESS component, signed by these two entities. Will Uzbekistan generate 40% of its electricity from renewables? By , Uzbekistan is aiming to generate 40% of its electricity from renewables. The BESS will help to mitigate the effects of intermittency that are inherent in renewable energy sources, storing excess electricity generated during times of high production and make it available during periods of low production. The Tashkent solar energy storage project in Uzbekistan, led by China Energy Engineering Corporation, has made significant progress - the structural topping out of the energy storage station control building and the comprehensive completion of on-site dynamic compaction. EBRD finances the largest battery energy Jul 2, Nandita Parshad, Managing Director of the EBRD's Sustainable Infrastructure Group, said: "We are proud to partner with ACWA Power Uzbekistan's largest solar energy storage project sprints Jun 6, The Tashkent solar energy storage project in Uzbekistan, led by China Energy Engineering Corporation, has made significant progress - the structural topping out of the Huawei Uzbekistan Energy Storage Equipment Project About Huawei Uzbekistan Energy Storage Equipment Project video introduction Our solar industry solutions encompass a wide range of applications from residential rooftop installations to large ACWA Power signs financing agreements for Jul 1, Nandita Parshad, Managing Director, Sustainable Infrastructure Group at EBRD, said: "We are proud to partner with ACWA Power and co Tashkent s largest energy storage project What is EBRD doing with Tashkent solar PV & energy storage? Nandita Parshad, Managing Director, Sustainable Infrastructure Group at EBRD, said: "We are proud to
